

# Wooden Card Tray

Being disappointed by countless commercially purchased card trays, we took to the woodshop after an evening of playing cards with friends. The result is an functional, attractive and durable card tray for the discriminating players of Canasta, Crazy Eights, Gin Rummy, Hand & Foot, Shanghai - all games where you draw and discard cards.

Designed to hold two decks of standard playing cards, each card tray is individually hand crafted- no two are exactly alike. The tray shown is made from American red oak solids, stained in a provincial oak color and covered with an environmentally safe water-based clear satin finish. The steel ball-bearing swivel mechanism will last for a lifetime. Other wood types and stain color choices are available that may impact pricing.

Our card trays make an essentially functional, unique and thoughtful gift idea for all card players.

# CT575 Swivel Card Tray  
Net weight 1 lb. 2 oz.

Tray measures 5" x 7-1/2" x 2-1/4" high. Each compartment will hold standard 2-1/4" x 3-1/2" playing cards. Beveled inside walls with finger openings make for easy card draw and discarding. Discard side of tray offers an opening for 90 degree card turning for "freezing" the pile in certain games.

## Use and Care

Clean with a mild detergent like dish soap and a damp cloth when necessary. Dry immediately. Do not immerse in water. The clear satin finish is water resistant, not water repellent.

---

**Specifications:**

**Stock wood species available:**

- American Red Oak
- American White Oak
- Maple
- Walnut
- *All exotics are by special order*

**Stain colors available:**

Stain color chips depicted here are representations only. Different monitors and printers will not accurately reproduce the true color of the stain on your wood choice. We recommend you go to your local paint/hardware store to obtain a true visual of the the stain choice results.
